RETURNED FROM 'FRISCO.

Glen Miller Has Decided to Locate in Earthquake City.

Glen Miller returned this morning from San Francisco, where he has been for the last four or five months, and will remain here for a short time and then go back to San Francisco where he has opened a branch establishment. In fact, Mr. Miller is so well satisfied with business prospects there that he intends removing his home from this city to that point, though retaining his business interests in Salt Lake.

Mr. Miller is enthusiastic over the outlook in San Francisco. He says the drit of recovery and enterprise displayed by the people of that city, is something not only remarkable but marvelous, calculated to excite the ad-miration of anyone. They never for one moment consider any suggestion of giving up, but are going ahead with all their might, putting up one story shacks, or covering in rules with bearding so they can transact business. The spest dry goods stores are no better constructed than the buildings in a new mining camp, and the former elegant hard wood counters are replaced ov ordinary boards, while some sanks have overhead only temporory scaffolding, and desks that resemble common kitchen tables. But that doesn't matter; the bankers, the merthants are there to do business, and they don't propose that the lack of the usual facilities shall deter them. Building material is being rushed in

as fast as possible, and the result is a congestion of freights on all of the lines leading into San Francisco has been very embarrassing. However, this is now being cleaned up. The cheerful attitude of San Francisco peo. the eastern public and a rancisco peo. the eastern public, and eastern capt-talists are planning to build large de-

REPUBLICANS **MEET TOMORROW**

Members of Party Will Assemble To Name Their Convention Delegates.

AROUND THE HEADQUARTERS.

Chairman Martineau of the Democratic State Committee Going to Cache County to Repair Broken Fences.

Tomorrow night the political situation in the Republican party will come down out of the clouds to take definite form and shape, from which the complexion of the state convention can be forecasted. Delegates are to be chosen from all the voting districts of Salt Lake for the state convention. In this convention their duty is to nominate or help to nominate, a representative to Congress, a supreme court judge, 10 members for the lower house of the legislature, and two members for the

The fine work of political parties has usually been done in the primaries, where the real fight of the convention is often lost or won, according to the number of "friends" of each element in the warring factions landed on the delegation. In this case the only big fight is on the Christensen-Howell nomination, and it is safe to say that the friends of both aspirants will try to secure delegates who are friendly to one candidate or the other. Outside of this question there seems to be none in sight which will be affected by the personnel of the delegates selected. Senator Williams, the retiring Repubilcan member, is said to be willing to accept another nomination at the hands of his party, and so far there are no other candidates mentioned very stren-The two senators elected at this time secure a vote for the next United States senator, for which reason the American party is very anxious to land the places in the interests of Thomas Kearns, who is watching the legislative ticket with an eagle eye. The Republican nominees are not yet in sight for the senate, except in the form of mildly progressing booms.

In the Democratic camp there was plenty stirring today. Rollin W. Dole at last secured his collection of great men to adorn the walls, by a careful selection from the old time heroes who selection from the old time heroes who were stored in the junk room. A good picture of Bryan was found, and got the place of honor.

With him in various places around the headquarters, were hung Lincoln, Gen. Nelson A. Miles, Admiral Geo. Dewey, Senator Bailey, Grover Cleveland, one time president and Alten P. land, one time president, and Alton B Parker, one time candidate for the presidency. No trace could be found of Roger Sullivan, despite the fact that his picture was specially denated to the "Young Men's Democratic club" in his own handwriting. Chairman "Mike" Cunningham today

secured a key to the chairman's desk, which was found in the condition L. R. Martineau left it after the last cam-4-65s east Sixth South.

1-65s of the well remembered hurry-up letter voters, sent out by Martineau at 3 o'clock of last election day was the next discovery, and it was preserved Then came the party canvassing books, showing who's who in the Democratic camp. These are the livest assets on hand, as they will soon go out to the canvassers to be brought up to date.

State Chairman L. R. Martineau of the Democrats, has at last selected his state headquarters, beating out Republican Chairman Hammond in the French style race the two have been running to postpone the announcement. Martineau will operate the state cam-paign from his own offices in the Heraid building. He says that he expects to be in the field most of the time, and the headquarters will be wherever he goes. In Salt Lake they will be at his own offices, as he sees no reason to open special headquarters. To flustrate what he means by taking to the field, Martineau stated that this afternoon he will depart for the northern counties, with Logan as his destination, and repairing Democratic fences as his objective.

Republican county headquarters are open, but the furniture is not yet in. During the absence of County Chairman Eldredge Secretary Horace Smith 33-1123 First street, DeValley Resiis in charge.

The name of Walter W. Little, a young attorney who is affiliated with the American party, is mentioned for the nomination for county attorney on that ticket. Little says he is willing to the complement of the softened to take the nomination if it is offered

Mrs. H. J. Hayward addressed the Women's Democratic club at headquar-ters yesterday afernoon. Her topic was on methods to increase the mem-bership. As a preliminary feature of the meeting Chairman Cunningham and Secretary Dole unburdened themselves on ways and means by which the Democrats may finish first best after the returns are counted this fall.

The prospect this year is for a mighty routine set of conventions, without much fireworks and hurling of battle axes, with the exception of the Republican meeting. Here the P. H. Cannon and wife of Cherry gallery is promised a run for its money in the contest between Parley P. Chris-tensen and Jos. Howell for the con-gressional nomination. With the Dem-National bank leaves this evening, for Ex-Gov. W. J. McConnell of Idaho is at the Wilson, having come here to buy mining machinery. He is enthusiastic over the prospects of the state, with its increasing immigration and arable lands. crats it seems up to John Howells and Arthur Cummings to make the race for nomination as sheriff a lively fin-All the Americans can do listen while Patriot J. Daly reads the slate they are to hurran for.

UNDER MILITARY GUARD.

tery. Lewis was bound over to the district court by Justice Dana T. Smith and when arraigned yesterday he pleaded guilty to the charge and waived time for sentence. The woman in the case is Edna Phillips, and the offense was committed on April The American Railroad Colony at Aguaz Calientes, Mexico.

El Paso, Tex. Sept. 12.—The El Paso Times today publishes a report that the American isilipod colony at Aguaz Ca-lientes is under military guard in conse-quence of threats of Mexican workmen to Appointed Commercial Agent of Waquence of threats of Mexican workmen to drive out the Americans and burn the railroad shops. Many shots were fred promiscuously on Saturday, Sunday and Monday, it is said. The article further states that a woman who formerly resided here has written in a letter from Aguaz Calientes that the Americans there are very rauch alarmed and many are leav-ing. William A. Hopkins of Kansas City, live stock agent for the Wahash at Kansas City, has been appointed commercial agent for the same road in Sait Lake, succeeding R. W. Owens, recently promoted to general agent at Denver. The appointment is effective October L. J. L. Yundt, who took charge here on the departure of Mr. Owens, is to be

TO SWIM ENGLISH CHANNEL.

Calais, Sept. 13 .- T. W. Burgess, the French awimmer, left here at 4 o'clock this morning in his fifth attempt to swim the English channel. His pre-The Commercial club excursion to Ely promises to be a pretentious affair, so that the number of cars already provious attempts have failed.

SWIMMING CHAMPIONSHIP RACES W. H. Moore of the Coronado Beach company, passed through Salt Lake yesterday on his way east to engage in missionary work in the interests of

St. Louis, Sept. 13 .- Seven events will cided in the inaugural session of the National A. A. U. swimming cham-plenship commencing today at Laugh-lin's Lake and concluded Saturday. Amateur swimmers from all parts of the United States are entered. The program for the meet is made up of swimming events from a hundred yards to one mile, plunging for distance, fan-cy diving, relay races and pater polo. The feature of today's program com-prise the 100 yard and half rulle events. The New York Athletic club team arrived yesterday and the Chicago representatives from the Chicago Athletic association and Chicago Central Y. M. C. A. arrived this morning.

STOWAWAYS ON THE SHERIDAN. Honolulu, Sept. 13.—Four stowaways on the stranded transport Sheridan attempted to swim ashore last-night. One was drowned but the other three succeeded in landing. George McDough, a coal passer on the same vessel, fell through a hatch and was drowned in the hold, which is partly full of water. partly full of water

Preparations are being made to use the wrecking tackle, which was brought here on the Thomas, and an attempt to float the Sheridan will be made as soon as

ARMY OFFICERS WATCH DEVELOPMENTS IN CUBA.

Washington. Sept. 13.—While there are no visible activities around the war department, it is known that army officers are keeping in cloose touch with the developments in Cuba and are ready for any orders that may be deemed necessary by the president. The arrival of the Denver at Havana was officially reported to the bavy department.

Concerning the reports of activity at the

navy department.

Concerning the reports of activity at the Norfolk yard, in fitting out the cruisers Tacoma and Cleveland, it is stated that orders issued several weeks ago, when these ships concluded the cruise with the midshipmen are being carried out. They, as well as the Des Moines, were ordered to Norfolk and to be prepared for a cruise in Santo Domingo waters to relieve the ships longest in the service there, it is possible that in view of the situation in the ships longest in the service there. It is possible that in view of the situation is Cuba, rush orders have been issued to these cruisers that they may be in readi-ness for service at the earliest possible

INSURGENTS SWARMING IN NEIGHBORHOOD OF HAVANA

Havana, Sept. 12.—The insurgents today set fire to the long bridge of the Western railroad at Calabaxar, near Sagua La Grande, but it was not sufficiently burned to prevent the passage of trains. The rebels are using locomotives to pull down water tanks, etc., along the line. Insurgents are swarming in about the town of Santiago de Las Vegas, 12 miles south of Havana, and a conflict in that city is imminent. minent.
Four hundred additional troops were

brought into Havana this merning from Guines for the protection of the city and to assist in attacks upon the rebels in outlying towns. There has been no telegraphic commu-nication whatever today along the line of the Western railroad, or over the govern-ment liens to Pingr del Rio.

dered in a feeling manner the selec-tions "Go Bury Thy Sorrow," "Come ment liens to Pinar del Rio.

According to the best information to be obtained, the rebel force upon Pino Guer ta, is moving to the eastward along the southern edge of the Pinar del Rio mountains and other bands which constantly receive additions from the localities through which they pass, are committing depredations along the line of the railroad. All indications point to the concentration outside of Havana city of the rebel forces in Pinar del Rio and Havana provinces. Ye Deconsolate," and "We Shall Meet Beyond the River," The speakers were Elder W. W. Riter, B. F. Cummings, Angus M. Cannon of this city, and J. E. Bone of Lehi. They spoke of her faith in the gospel, also of her admirable traits of character and loving disposition. Many relapate in the last sad rites. The open-ing and closing prayers were by Elders Nephi Timson and Charles C. Bush. The grave was dedicated by Angus M.

provinces.

It was persistently rumored today that the managers of the insurrection are seeking to foment a general strike in Havanand that an entrance to the city will be attempted coincident with the outbreak of internal disorders.

THIRTY DAYS' NOTICE.

Further Hearings on Proposed Changes Of Rates. and there are grounds for believing that the trouble will be settled, the mines

Washington. Sept. 12.—Further bearing was given by the interstate commerce commission today on the question of walving the 30 days notice of proposed changes of rates on shipments of cotton. Chairman Knapp announced that he had received a letter from a well known president of a western railroad, protesting against any waiver of the 30-day rule, without exception, on expert and import traific One passage of the letter is as follows:

follows:
"I protest against the letting down of the bars which will reader the efforts of the company to obey the law useless and result in a flood of liegal practises and compel railway officials to again sit in the shadow of the penitentiary the remainder of their lives." meeting was prolonged. This morning situation is very hopeful an early settlement. Our committee, however, has no full powers to settle with the mine owners. We are only appointed to hear their grievances and then to report back to the organization. I think, however, that the miners will accept our recommendations for there are no dif-

of their lives."

Edward Baxter, counsel of several southern roads interested in the hearing upon the conclusion of the reading of the letter, declared that he believed he the letter, declared that he believed he knew the name of its anthor.

"I think," said he "that he belongs to a class of railroads that nominally profess obedience to the law and make what profit they do make by secret midnight rebates. We are not here before this commission to ask it to wink at anything."

DUMONT'S AIRSHIP GOES WRONG

Paris. Sept. 12.—Santos Dumont's new aeroplane broke down this morning in the course of experiments at Long Champs. The sirship descended rapidly and came in violent contact with the earth. It was very seriously damaged, but Santos Dumont was not injured.

RUN ON HIBERNIA BANK.

San Francisco, Sept. 13 .- The run of timid depositors on the Hibernia bank has not yet ended, quite a number being in line this forenoon. All ere being promptly paid in full, the bank having millions of dollars available. able for immediate use. The state bank commissioners having reported that the institution is absolutely sound, the run, which has not assumed large

Evidence is accumulating to show that the chemical elements in general are not as fixed and unalterable as was ATTACHMENT SUIT.

Portland, Or., Sept. 13.—It is reported by adding sulphuric acid. The two specimens of sulphuric acid. The two specimens of chloring differed materially, although neither showed any impurity on being tested. The second specimen was much darker and more greenish than the first and in aqueous solution is was much more rapidly transformed by light into hydrochloric acto. The experimenter thinks the chlorine atom may vary in structure as radioactive bodies seem to

French acronautic authorities have given the name "aeronef," or aviation apparatus, to a flying machine that is heavier than the air. The varieties indude (1) the helicopter, sustained and driven by one or several propellers; (2) the aeroplane, chiefly sustained by one or more flat or curved surfaces; and (3) the orthopter, or machanical bird. sustained and propelled by beating

One of the earth's plant wonders is the huge plane tree, nearly 18 yards in circumference, of the island of Gos, in the Aegean Se. A breast high platform around it seems to have been built to support the hollow and weakened trunk, and the well-preserved lower branches are held up by piece of antique commis, over whose topthe branches have grown like caps. Or the marble seat in the shade of the tree Hippocrates, the father of medicine, is supposed to have taught the healing art four centuries before Christ. The tree, therefore, must be considerably more than 1,000 years old, and the sultan holds it in such veneration that it is closely guarded day and night. With much difficulty

a British surgeon lately secured a few twigs, leaves and catkins as mu seum specimens. The incandescent lamp fed by steamgenerated current is the greatest in dustrial extravagance of the age. D

Feuerbach, a European lamp factory superintendent, cites the Cuban fire-fly's phosphorescence, which contains 98 per cent of light and only 1 per cent of heat, and contrasts this with the luminous efficiency of the incandescent lamp, which he finds to be only I per cent. Another electrician shows that the incandescent lamp consumes onetenth horse-power for a light of 16 candles, which is 10 times the consumption of the electric arc for an equal effect. The energy of coal being 100 per cent, it is continued, a first-class engine recovers 13 per cent the electric generator of 90 per cent ef-ficiency makes available 12.35 per cent, and the incandescent lamp utilizes 9 per cent of this, or 11.11 per cent of the whole. The luminous rays of the lamp being 1 per cent, the light rep-resents about one-tenth of 1 per cent of the energy stored in coal. Curious bands of light and shadow

have been noted momentarily as the sun rises and sets. For a special study of the phenomenon, C. Rozet, a French observer, has arranged a white screen to receive the rays of the rising of the sun from behind a hill, and has found the bands very distinct, usually straight, but sometimes undulating They seem to be parallel to the part of the sun's edge that is just visible. They may be seen for two or three seconds or more after sunrise or before sunset, are about an inch or an inch and a half wide, and travel sideways at greatly varying velocity-one to two yards and six to nine yards per second being the extremes. The velocity seems to bear some relation to that of

A new French automatic alarm is adjustable for small or large rises of temperature, and may be used to give warning of fire or to signel too much heating of any substances, as ceal, fats, etc. It depends upon the expansion of the air in a closed compartment of a metallic vessel. The increased pres-sure forces a diaphragm upward, and this touches the adjusting screw, closing an electric circuit. One bell cir-cuit may be made to serve for several of these simple pieces which may be distributed in the danger spots of any establishment.

that scars may be prevented or re moved by cutting the skin slantwise instead of vertically is pronounced one of the most important of recent advances in surgery.

A German statistician has made a careful investigation to discover in which countries the greatest age is attained. The German empire, with 55.-000,000 population, has but 78 subjects who are more than 100 France, with fewer than 40,000,00, has 213 persons who have passed their hun Scotland, 43; Denmark, 2; Belgium, 5 Sweden, 10, and Norway, with 2,000,000 inhabitants 23. Switzerland does not boast a single centenarian, but Spain, with about 18,000,000 population, has 410. The most amazing figures come from that troublesome and turbulent region known as the Balkan Peninsula. Servia has 573 persons who are more than 100 years old; Roumania, 1,084, and Bulgaria, 3,883. In other words, Bulgaria has a centenarian to every 1,000 inhabitants, and thus holds the interna-tional record for old people. In 1892 alone there died in Bulgaria 250 per-sons who had exceeded the century.
